

A CARING RETIREMENT COMMUNITY

NorthPointe Woods is a not-for-profit senior lifestyle community offering private independent living residences, plus apartments with access to supportive care for those who need assistance with the activities of daily living.

Our leadership team has proven experience and a solid commitment to helping seniors find residential solutions that enable them to live life to the fullest.

Executive Director

Ron has been in the hospitality business his entire career. For the first 30 years, he held executive positions with a leading global hotel management company: Interstate Hotels and Resorts, managing new and distressed hotel properties in 10 states. Over the past six years, he has applied that experience and knowledge to executive positions in senior living—most recently heading up operations for NorthPointe Woods. According to Ron: “I love finding solutions to the housing needs of seniors. It’s truly rewarding. The residential lifestyle options and supportive care available at NorthPointe Woods make that part of my job easier. I’ve always said, *Difficult we do today. Impossible just takes a little longer.* We’re here to help—today and tomorrow.”

Director of Health Services

Angie Winter joined NorthPointe Woods with more than seven years of experience in senior living, specializing in assisted living and memory care. She holds certifications in the field, including Certified Assisted Living Director (CLD) and Certified Dementia Practitioner (CDP). Notably, she is also a Registered Nurse (RN) with nine years of practical nursing experience. According to Angie: “Each and every day, I’m focused on team-building. I’m fortunate to lead an accomplished caregiving staff at a community where the nurse-to-resident ratio already far exceeds Michigan state requirements. As a fierce resident and family advocate, devoted to excellence in resident-centered care, my goal is to help make our already exceptional care even better at NorthPointe Woods.”

CONVENIENCE PLUS A COMPLETE CARE CONTINUUM.

At NorthPointe Woods, senior living residents discover a quality of life that is second to none. Situated on 50 wooded acres overlooking the City of Battle Creek and bordering Battle Creek's Linear Park, NorthPointe Woods is located adjacent to Kellogg Community College, near Bronson Battle Creek Hospital, a pharmacy, grocery store, restaurants—and everything seniors need for a full and rewarding life.

NorthPointe Woods is the only retirement community in Calhoun County able to offer residents both independent living and assisted living under one roof and, if needed, the availability of skilled nursing, memory care and rehabilitation services on the same campus through Trilogy-owned The Oaks.
